

# twice as nice

**Total Connect™ 2.0. Now even more amazing than ever.  
And even less like anything else out there.**

Packed with an interactive dashboard, dynamic flash-based graphics and more, Honeywell's Total Connect 2.0 enhances the end-user experience—providing your customers with more convenience and control while saving you time and money. Everything your customers need to control and manage their security systems in real-time on their iPhones®, iPads® and other wireless mobile devices is viewable at a glance. They can access up to 100 sites on one login—twice as many as before. They can control their cameras and even set up their own accounts—making life easier for them and for you. When combined with Honeywell's full range of controls and sensors, Total Connect 2.0 lets you offer the industry's only end-to-end solution and create a truly connected home. When it comes to choosing the best way to grow your RMR, there's no need to think twice.
